My child is planning to show and sell a market feeder calf project at the Berlin Fair. I agree to abide by the Market Livestock Guidelines and rules set by the Berlin Fair Livestock Committee. This can be found in a current year Berlin Fair Book. All qualified market project animals will be sold at auction.

The feeder calf project animal will be either a December or January born bull calf (no heifers). A dairy beef feeder must be of a recognized dairy breed as described by the American Dairy Cattle Association Standards.

I understand that the calf or calves will be ear tagged at the initial weigh-in by the livestock committee. All feeder calves MUST be castrated and dehorned by the weigh-in date, and must be vaccinated per veterinarian recommendation. I understand that the livestock committee will check the dehorning and castration status of the calf or calves at initial weigh-in and will inform us if further action is needed.

I/we also understand there is up to a 3% fee deducted from the exhibitor's market livestock sale check. The money deducted from sale check is used to pay for the yearly expenses incurred to run the shows and auction, which includes but is not limited to: buyers' dinner at the fair, livestock pictures, judges' fees, ear tags, calibration and certification of the livestock scales, trucking, postage, office supplies, and maintenance of equipment and grounds.

I understand that the Berlin Fair does not carry medical accident insurance for injuries sustained in its programs, for physical damage to the participant's property or liability coverage arising out of the use of the participants property. I further agree to indemnify, hold harmless, and defend the Berlin Fair and the respective officials, agents, representatives, volunteers, employees, and board members from any and all claims for injuries, damages or loss sustained by me or my ward arising out of, connected with, or in a way associated with the activities of the program. **Parent's Initial** _____

By signing I have read and understand the above provisions of the Market Feeder Calf Project.
